Subject: Additional Supplies/Equipment for Gold King Mine
Form-G2 CHECK OUT SHEET v2-20150816.xls

Hi Tom:

I've attached a checkout form with additional equipment to mobilize to the Gold King Mine site. The sludge judge equipment is crucial for an urgent task for Steve Way at the mine and will need to be shipped Fedex on Monday – let me know when it's ready and I can have somebody from Weston stop by and pick it up for shipment. If we can pick up the gloves as well we'll get them to the site by Fedex as well. Thanks for all of your help with this fast-paced response! Things are moving fast.

Any idea when the reagents for that Hach Kit analyzer might arrive at the site. The instrument arrived yesterday and, while we don't have any current tasking to start that work, I'd like to be able to tell EPA when we can go if they ask.

Let me know when the stuff might be ready and I'll have somebody stop by to pick it up.

Steve Merritt: This equipment is needed at the mine site to support Steve Way's efforts for the adit water treatment.

Thanks,

Dave
